NEW CARNATIONS.

Originators' descriptions. Prices are for rooted cuttings, but will be supplied from pots as soon as plants are established in pots.

LILIAN POND.

(Reuter).

One of the finest and largest white Carnations, averaging 3 to 3½ inches in diameter. Flowers perfectly round, petals fringed, center well built up and double, absolutely pure white, very fragrant and produced on strong wiry stems in the greatest profusion; not a cropper but a free continuous bloomer. 25 plants, $3.00; 100 plants, $10.00.

ADONIS.

(Hill & Craig.)

The finest scarlet Carnation yet produced.

It is a fine free grower, compact in habit, with stiff, erect stems, which average two feet and over in height; the grass is of medium size, not a superfluous blade on it, covered with the "bloom" of good health. It can be spaced 10x10 inches on the bench.

During the entire past year it has been in perfect health, entirely free from rust, bacteria, and stem rot; it succeeds under similar treatment to that given to Crane. It is an "easy doer," while requiring plenty of air, food and water.

Form perfect, and quite distinct, not crowded with petals, which fact allows it to develop its flowers in much less time than any other "fancy" Carnation. It is as **early** as the best of the standard sorts, extremely free and quite continuous; one of its strong points is that it does not lose in size or brilliance as warm weather comes on.

The "Young Adonis" is an athlete among Carnations, and we shall watch with interest the advent of a worthy rival in its color, for Adonis has a brilliance and a beauty by which all other sorts pale and fade, while at the same time it surpasses all other reds in size.

$3.00 per dozen. $14.00 per 100.

ENCHANTRESS.

(J. D. Thompson Carnation Co.)

Color—A very pleasing shade of light pink, deepening toward the center; far superior to Daybreak at its best.

Size—Three and one-half inches and over. When fully developed, over four inches in diameter.

Form—The guard petals are broad, well arranged and of great substance; the center full and high; very attractive and of fine form.

Calyx—Does not burst.

Stem—Is strong and stiff, averaging two to three feet in length.

Habit of Growth—Both out of doors and in the house the growth is ideal; very healthy and of vigorous constitution.

Blooming Qualities—Very early, free and continuous. Needs no special culture to develop magnificent blooms, producing as freely as any Carnation to date. Sells at sight and "enchants" all who see it.

Price, $3.00 per dozen. $12.00 per 100.

CARNATIONS.

(From 2¼-inch pots.)

Three Good Ones from Introductions of 1902.

Gaiety—A seedling of Bradt by Scott, scarlet and white variegated, has stiff wiry stem, perfect calyx and no surplus grass; a very easy doer. Enjoys a temperature of about 50 degrees. While the flower is not quite so large as Bradt when that variety is at its best, it is less crowded with petals and comes to perfection in one-half the time and has remarkable freedom of bloom. $4.00 per 100.

Cressbrook—Bright pink, 3 to 3½ inches in diameter. Stem strong and heavy; a fine grower with no surplus foliage. Has the indorsement of many leading Carnation growers and is worthy a place in the front rank of Pink Carnations. $4.00 per 100.

Mrs. E. A. Nelson. (Nelson.)—A pure glistening pink, similar to Frances Joost; always a popular shade. An early and continuous bloomer, under good cultivation having a stem 2 to 2½ feet high and strong enough to sustain its largest flowers. Flowers often reach a size of 3½ to 4 inches when well handled. $4.00 per 100.

General Collection—2¼ inch Pot Plants.

America—Pure light scarlet of even shade, comes into bloom early and its strongest points are its freedom of bloom, large size and easy culture. Stems 20 to 24 inches. $3.00 per 100.

Ethel Crocker—Combines nicely all the requirements of a large flowered and free blooming "money-earner." Will produce more long stemmed, perfect flowers than any other variety. Color, pure pink, deeper and brighter than Scott. $2.50 per 100.

Daybreak—Has paid more coal bills than any Carnation in cultivation. Still unequaled as a flesh colored. $2.50 per 100.

MRS. E. A. NELSON.

Flora Hill—A favorite white variety; one that succeeds with almost everyone. As free blooming as any white. $2.50 per 100.

California Gold—An excellent yellow variety, closely resembling Ethel Crocker in habit and healthy growth. It is by far the freest flowering variety of its color. Flower of good average size, on stiff, slender stems, golden yellow with soft red markings. $2.50 per 100.

Dorothy—One of the best commercial Pinks, having no equal as a paying variety of this color. It is a bright pure pink, about the shade of Scott, produced just as freely, and has no equal in keeping qualities. Flowers much larger than Scott, finely formed and nicely serrated; not an exhibition variety, but a money maker. $3.00 per 100.

Genevieve Lord—A beautiful shade of pink, a trifle darker than Albertine. One of the strongest growers and most free blooming. $2.50 per 100.

G. H. Crane—The finest all round scarlet to date, of strong and vigorous habit of growth, making an endless number of cuttings. It is a large flowered sort, producing both quantity and quality. $2.50 per 100.

Lorna—Flowers pure white, three inches and over in size, very fragrant. Center well filled, rounding the flower to a most pleasing form. Comparing it to its parent, White Cloud, it shows decided improvement in more compact and stronger growth, longer and stronger stem, larger flower with perfect calyx; better form, more pure white. $3.50 per 100.

Mrs. Thos. W. Lawson—Deep cerise pink; an early bloomer and very free for so large a flower. Flowers average three inches in diameter, and habit of growth is remarkably vigorous. $3.00 per 100.

Mrs. Frances Joost — Very early and free bright pink. A standard variety that nearly everyone continues to grow. $2.50 per 100.

Mary Wood — An excellent fancy flowered sort. Pure white, nicely striped and mottled scarlet. Gives fine length of stem and good sized flower. $2.50 per 100.

Mrs. Geo. M. Bradt — The standard of variegated Carnations. Brings top-notch prices when grown well. $3.00 per 100.

Prosperity—An extra large fancy flowered; purest white, overlaid with pink mottles, deepening toward the center. Calyx strong, never bursting, as the petals in developing spring out far enough before expanding. A splendid keeper and good shipper. $3.00 per 100.

Queen Louise—Flowers of good size, on long stiff stems. Blooms early, late and all the time, one of the most profitable white varieties; a clean healthy grower. $3.00 per 100.

Gov. Roosevelt—Deep brilliant scarlet, heavily shaded with maroon. Flowers large and well formed on good stiff stems. One of the best of dark colored kinds. $3.00 per 100.

Norway—A vigorous and rapid growing large white, popular with many growers. $3.00 per 100.

The Marquis—Color, light pink, 2½ to 3 inches in diameter. A money maker wherever grown. $2.50 per 100.

White Cloud—One of the standard whites; strong growing, free blooming, with long, stout stems. $2.50 per 100.

CHRYSANTHEMUMS.

OLDER VARIETIES OF SPECIAL MERIT.

Oresco—Resembles Mrs. Jones in foliage, habit and form. Decidedly distinct in color, first opening a beautiful apricot, shaded rose; when fully developed a pleasing shade of crushed strawberry color. $8.00 per 100.

Edgar Sanders—Dark bronze with broad incurving petals showing the reverse only. Has taken a prominent place on account of its large size, artistic form and peculiar color. $8.00 per 100.

Monrovia—Many successful growers claim this as the best early yellow. Has good stiff stem of medium height, well foliaged. A grand bright yellow Japanese incurved. $6.00 per 100.

Timothy Eaton—Still the champion of all whites. Has met with unparalled success as an exhibition 'Mum. Will be planted in larger quantity than ever this year. $3.00 per 100.

TIMOTHY EATON.

Opah—(Lady Fitzwygram X Marquis de Montemort.) A large flower intermediate between its parents in form; white, slightly suffused with pink. The late buds showing a decided pink coloring, while the early ones produce almost white flowers. More easily managed than Lady Fitzwygram. $8.00 per 100.

NEW CHRYSANTHEMUMS FOR 1903.

(Originator's Descriptions.)

F. J. Taggart. (N. Smith & Son.)—The most striking novelty of recent years. The best of all the hairy or plumed section. A great advance over all yellows in this class, being perfectly double and the hair-like filaments are more pronounced. No other variety at Kansas City and Chicago attracted so much attention and brought out such exclamations of wonder and surprise. Color, light yellow. Flowers 8 inches in diameter. An exhibition variety of exceptional merit. Winner of Gold Medal and $150 prize at Kansas City and Bronze Medal at Chicago. $5.40 per dozen. $30.00 per 100.

Mlle. Marie Lieger—A French seedling that has won at every exhibition since brought to this country. Grand deep flower with stout well foliaged stem. Magnificent shade of pink. No Chrysanthemum of recent years has attracted more attention and is bound to become a standard pink, as it has every requirement of a profitable variety. $30.00 per 100.

Yellow Eaton—All that should be neccessary to say of this variety is that it is a good clear yellow form of Timothy Eaton. Makes good exhibition variety and profitable for general cultivation for common trade. If anything is not quite so coarse in growth as the white form, but is just as easily grown. $30.00 per 100.

CANNAS.

THE CHOICEST OF THE NEWER VARIETIES.

David Harum—Dark bronze foliage. Strong grower and one of the freest blooming. Vermilion scarlet dotted with crimson spots. Flowers are large, made up of well-rounded petals and have great substance. Grows 3 to 3½ feet. Considered by experts to be one of the best of recent introductions. $10.00 per 100.

The Express—In color it is bright scarlet crimson, a shade lighter than that of Philadelphia, one of its parents. Grows 2½ to 3 feet high and has fine clean, healthy habit of growth. Is a mass of bloom all season and proves itself an all around good crimson bedding Canna. $3.00 per dozen.

Victory—Extra strong, robust grower, making a height of 5 to 6 feet. In color is bright orange scarlet with fine crimson veins running lengthwise of the petal and bordered with irregular bands of yellow. The flower is of largest size, measuring so large as to indicate some crossing of Italian Canna blood with the Crozy type. $15.00 per 100.

Gloriosa—A dwarf, compact grower, grand for borders and edging. Might well be called "Dwarf Queen Charlotte;" has every marking of flower and foliage similar, but is somewhat brighter colored and much more dwarf. Center of petals dark rich crimson, widely bordered golden yellow. $4.00 per 100.

GRAND FOLIAGE CANNA.

Black Beauty—A grand variety with beautiful foliage as highly colored as a Dracena. A deep bronzy-wine red, almost black. No other plant we know equals it in color of foliage; one of the finest plants for centers of groups or amongst shrubbery where a tall growth is required. Five to six feet. $10.00 per 100.

CANNA SAM TRELEASE.

Flowers open up flat with broad, overlapping petals, making a perfectly round flower quite distinct from any other. Dazzling scarlet with edge of petals and center rich yellow, forming a brilliant combination. Grows 2½ to 3 feet. $4.00 per 100.

GIANT ORCHID FLOWERED CANNA.

Mrs. Kate Gray.

One of the largest flowered Cannas ever introduced. The result of a cross between Italia and Mad. Crozy. Flower is round and full, of a clear wine color, suffused with gold, and larger than either Austria or Italia. The flowers have a great deal of substance and are very showy and effective $6.00 per 100.

BEST PINK CANNA.

Martha Washington.

We consider this the best pink Canna ever introduced. Flowers are extra large, often reaching 5 inches in diameter, made up of 5 broad petals. Plant grows about 3 feet high and makes good sized clumps, giving quantities of eyes for dividing. $5.00 per 100.

FERNS.

Nephrolepis Piersoni.

Bostoniensis improved in every way. Has received the highest awards at every exhibition staged so far. The photograph gives a good idea of the feathery, plume-like fronds, althought plant must be seen to be appreciated. Its fronds grow broad and heavy, measuring six and eight inches across when developed, and on account of their weight assume a graceful appearance. Owing to the fullness of the foliage even small plants look well furnished and are much more symmetrical than small Bostoniensis. $9.00 per dozen. $50.00 per 100. Strong stock from 2¼-inch pots.

GERANIUMS.

The following list of new Geraniums has been selected from a large list we have had under trial and are considered improvements over older varieties of like descriptions in their respective classes.

SINGLE GERANIUMS FOR 1903.

Enchanteur—Large floret of perfect form with margin and center of white with circle of rosy crimson. Fine large flower cluster supported by stout rigid stem. A grand free-flowering variety, standing sun and storm without injury. 35c. each.

Commandant A. Felker—A single scarlet of great promise. Makes compact, shapely plant of good rugged constitution. Flowers good bright crimson scarlet, averaging 2 inches in diameter, formed into round, perfect trusses, that are elevated well above the foliage. 35c. each

Paul Desjardins—Broad petaled violet crimson flower with upper petals scarlet at base. Quite unlike any other variety we are growing. Will help to make a change from the pinks, crimsons, and scarlets so common in Geraniums. 35c.

Single Bedding Geranium, Julia Marlow.

A novelty of two years ago, but in many respects without an equal as an all-round good single. It has proved to be a perfect bedder with grand habit of growth. Petals broad, overlapping, forming perfectly round flowers and produced in large shapely trusses. In color is a dazzling shade of even scarlet. There is no question but that this is a variety that will pay anyone to grow in quantity, both for bedding out and for pot culture. $8.00 per 100.

NEW VARIETIES OF BRUANT TYPE.

Marquis de Moy—Single flowered beautiful bright rose, the two upper petals marked white. Strong vigorous grower though not too rough in habit, making well formed specimens for pots or bedding. 35c. each.

Virtuose—Quite distinct from any of the older varieties of the Bruant race. A semi-double bright salmon rose, entirely free from the orange cast of many varieties of this class. Habit of growth and blooming qualities excellent and individual floret perfectly rounded. 35c each.

Peter Henderson—A superb variety of dwarf, healthy growth, with large flower spikes supported well above the foliage. Flower semi-double, broad and flat, of a bright orange scarlet cast; one of the brightest and most attractive of all reds. 35c.

NEW DOUBLES FOR 1903.

Capt. Blomet—Brilliant orange scarlet, center dotted pure white. Flowers nicely rounded and compact. One of the most striking of the many new varieties we have tested. 30c. each.

Madame Halimbourg—A very unique and beautiful shading of clear orange rose, entirely different from any combination of coloring we have seen in Double Geraniums. Flowers fully double and appearing in good sized trusses. Habit of growth excellent. 30c. each.

Countess de Pillet Will—Has fine flower cluster of well-opened semi-double bloom. Broad pure white border with center of salmon pink. A beautiful combination of coloring rarely met with in this section of Geranium family. 35c. each.

Incandescent—Good large clusters of nicely shaped flowers with wavy petals; bright scarlet. Plant is of good vigorous habit and makes a grand bedder. 35c. each.

NEW SCARLET GERANIUM, E. H. TREGO.

An extra strong growing variety with large shiny leaves, showing trace of ivy leaf blood, but with distinctly marked zone. Flowers brightest cherry-scarlet. Individual floret measuring 2 to 2½ inches across and flower truss correspondingly large. $8.00 per 100.

GENERAL COLLECTION OF BRUANT GERANIUMS.
